

**Contract Holder GS-30F-0043V**

GapVax®, Inc., a leading Manufacturer of Industrial Vacuum Equipment, announces that the U.S. General Services Administration (GSA) awarded GAPVAX® contract GS-30F-0043V under Schedule 23V VEHICULAR MULTIPLE AWARD SCHEDULE (VMAS) on July 1, 2009. This GSA contract provides eligible government customers with a convenient and efficient way to purchase GapVax® vacuum trucks which are renowned for their highly efficient filtration, low filter baghouse maintenance costs, and long filter bag service life. Special Item Number (SIN) 618-02, Waste Disposal Vehicles and Accessories and Trailers and Accessories, lists our product models for Industrial Vacuum (HV), Combination JetVacs (MC), Hydro-Excavators (HV & VHE), and GapJet products and options.

As a GSA schedule holder, GapVax® will simplify their interactions with well-established customers and allow for the introduction of GapVax® products to broader base of government and military agencies. GapVax® is committed to strengthening the company's government channel, and now agencies can access their products with preferred pricing, faster acquisition times and lower administrative costs.

Please note that several ordering activities, such as state and local governments, may not be eligible to use GSA sources of supply. However, other means of procurement are available via Disaster Recovery or the American Recovery and Reinvestment Act (ARRA).
